Draft Scenario Plan of Study Available for Review – As part of the [Assumptions & Estimates Report](#), the Water Plan has released a draft Plan of Study describing the approach that will be used to evaluate resource management strategies under multiple future scenarios for Update 2013. This approach builds on the [Proof of Concept](#) shared with SWAN in May of 2011. You will soon receive a notice for a follow-up workshop that will be held in September. The draft Plan of Study is available here:

Please submit comments on the Draft Plan of Study by September 1 to juricich@water.ca.gov

Update 2013 DRAFT Chapters on Data, Tools, & Analyses Available for Review – SWAN members are encouraged to review the drafts for Chapter 5, Managing and Uncertain Future, and Chapter 6, Integrated Data and Analysis. These chapters are part of the Update 2013 Volume 1 Strategic Plan. Chapter 5 describes how the Water Plan is considering risk, uncertainty and sustainability in water planning. Chapter 6 describes enhancements to collaboration, data, and analytical tools to support integrated water management. The Draft Chapters will be posted here:
